NU-CHARGE IT®
Electrostatic Coatings

Product: Nu-Charge It® 105+ Reducer
(560X1005).

Type: Reducer

Description: A special solvent blend formulated especially for electrostatic coatings.

Uses: Use as a reducer and clean up solvent for all electrostatic products. Nu-Charge It® 105+ reducer will provide the ultimate results desired when reducing electrostatic products without affecting the polarity. NOTE: May also be used to thin Nu-Charge It® Electrostatic Epoxy as it nears the end of its pot life. DO NOT REDUCE COLD PAINT (as temperatures increase, paint will thin accordingly).

Flash Point: In excess of 105° F. Considered a "safe solvent".

Pot Life: N/A

Shelf Life: N/A

Container Size: 1 gal., 5 gal., 55 gal. drum.
